**GREENSVILLE COUNTY
WATER AND SEWER AUTHORITY**

TO: Greensville County Water and Sewer Authority

FROM: Glen Gibson, Utility Projects Coordinator

RE: Procurement of Industrial Controls Electrician Services

DATE: January 12, 2016

The Authority needs to procure the services of an Industrial Controls Electrician. The Industrial Controls Electrician will respond to calls, for electrical problems, process control issues and or emergencies at any of the Authority's water or wastewater facilities. The contractor's services may also be used on new electrical projects the Authority plans and implements. The service will be procured for a three (3) year period.

In order to properly procure these services, I respectfully request that the Authority take formal action to approve Resolution #WS-16-23. It is attached for your review.

Thank you for your attention to this matter.

RESOLUTION WS-16-23
DETERMINATION TO PROCURE GOODS AND NONPROFESSIONAL SERVICES BY COMPETITIVE
NEGOTIATION FOR PROCUREMENT OF INDUSTRIAL CONTROLS ELECTRICIAN SERVICES

WHEREAS, Virginia code Section 2.2-4303.C requires that when goods and nonprofessional services are to be procured by competitive negotiation, rather than by competitive sealed bidding, the governing body shall adopt a resolution declaring its intent to procure by competitive negotiation, and stating the reasons therefore; and

WHEREAS, the Greenville County Water and Sewer Authority, ("Authority"), wishes to request proposals for a Industrial Controls Electrician; and

WHEREAS, the Industrial Controls Electrician will respond to calls, for electrical problems, process control issues and or emergencies at any of the Authority's water or wastewater facilities. The contractor's services may also be used on new electrical projects the Authority plans and implements. The procurement will be valid for three (3) years; and

WHEREAS, the Authority has determined that procurement of said services by competitive sealed bidding is neither practicable nor fiscally advantageous to the Authority's customers; and

WHEREAS, the Authority has determined that the best interests of the Authority's customers would be served by procurement of said services by competitive negotiation to afford vendors some flexibility in making proposals, and enable the Authority Staff to evaluate the proposals regarding equipment and services to be procured.

IT IS, ACCORDINGLY, HEREBY RESOLVED that the Authority has determined that procurement of a Industrial Controls Electrician by competitive sealed bidding is neither practicable nor fiscally advantageous to the Authority's customers, and that the said services and equipment should therefore be procured by competitive negotiation.

Michael W. Ferguson, Chairman
Greenville County Water and Sewer Authority

ATTEST:

Denise A. Banks-Chatman, Clerk
Greenville County Water and Sewer Authority

Adopted this 19th day of January, 2016.

**AGREEMENT FOR FIRE HYDRANT RENTAL, FIRE PROTECTION SERVICES AND
WATER SUPPLY SERVICES BETWEEN THE GREENSVILLE COUNTY WATER
AND SEWER AUTHORITY AND GREENSVILLE COUNTY, VIRGINIA**

This Agreement for Fire Hydrant Rental, Fire Protection Services, and Water Supply Services between the Greenville County Water and Sewer Authority and Greenville County, Virginia is executed this _____ day of _____, 2016 (the "Effective Date"), by and between the Greenville County Water and Sewer Authority, a public body corporate and politic under the laws of the Commonwealth of Virginia (the "GCWSA") and Greenville County, Virginia, a Virginia County (the "County") (collectively, the "Parties" and individually, a "Party").

RECITALS

1. The GCWSA owns the Jarratt Water Treatment Plant and associated water distribution system improvements (the "GCWSA Water System").
2. The GCWSA and the Virginia Electric and Power Company, a Virginia public service corporation ("Dominion Virginia Power"), have entered into the Dominion Virginia Power Generating Plant Water and Wastewater Agreement dated April 20, 2015 (the "DVP Agreement").
3. The DVP Agreement provides for:
 - a. The development of a gas fired combined cycle power generating facility in Greenville County (the "DVP Project").
 - b. The GCWSA to provide water supply services to the DVP Project.
 - c. The GCWSA to construct and operate certain water system improvements including, without limitation, a 900 million gallon raw water storage reservoir, expansion of the Jarratt Water Treatment Plant, the Route 58 elevated water tank, the Route 58 water booster station and water main improvements, the

raw water intake structure from the Nottoway River, an intermediate pump station, raw water mains, and fire hydrants along the water distribution lines on Routes 58, 605, 607, and Allen Road, Otterdam Road, and Westover Hills Avenue (collectively, the “Water System Improvements”).

d. DVP to pay the GCWSA water connection fee and user charges.

4. The development of the DVP Project will result in substantial new public service corporation property tax revenues and other revenues to the County.

5. The Water System Improvements will allow the GCWSA to make fire hydrants available for fire protection services in areas of the County where fire hydrants are not available. The Water System Improvements will also allow the GCWSA to provide new or improved water supply services to the County and its residents.

6. The GCWSA intends to borrow funds from the USDA Rural Development Agency to pay a portion of the cost of the Water System Improvements (the “Rural Development Loan”).

7. The GCWSA is not expected to collect new revenues from the Water System Improvements in amounts sufficient to pay the full cost of the debt service on the Rural Development Loan.

8. The County will benefit from the Water System Improvements because of the availability of fire hydrants for improved fire protection services and new and improved water supply services in the County.

9. The County wishes to enter into this Agreement to rent fire hydrants and to improve water supply services in the County.

10. The obligation of the County to make payments to the GCWSA pursuant to this Agreement shall be conditioned on the GCWSA constructing, operating and maintaining its Water System and the Water System Improvements, providing water supply services to the DVP Project as provided for in the DVP Agreement, complying with the DVP Agreement, and the availability of fire hydrants as constructed and maintained as part of the Water System Improvements.

11. Virginia Code Ann. §§ 15.2-2134, 15.2-5114(11) and (12), and 15.2-5147 authorize the GCWSA and the County to enter into this Agreement.

AGREEMENT

NOW, THEREFORE, for and in consideration of the foregoing Recitals, which are a part of this Agreement, the benefits of the Parties to be realized from this Agreement, the mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

ARTICLE I

INCORPORATION OF RECITALS

1.1 The foregoing recitals are hereby incorporated in this Agreement by reference.

ARTICLE II

GCWSA SERVICE OBLIGATIONS

2.1 The GCWSA shall provide the following services:

2.1.1. Construct, maintain and operate the Water System Improvements in accordance with the DVP Agreement.

2.1.2. Comply with its obligations pursuant to the DVP Agreement.

2.1.3 Construct and maintain fire hydrants along Routes 58, 605, 607; Allen Road; Otterdam Road, Westover Hills Avenue, and Jarrett Water Treatment Plant Mains as part of the Water System Improvements.

ARTICLE III

USE OF FIRE HYDRANTS

3.1 The County shall have the right to authorize volunteer fire departments, other firefighting agencies, and law enforcement agencies to use all hydrants that are part of the GCWSA Water System for fire protection services and other appropriate purposes.

ARTICLE IV

BASE RENTAL PAYMENT

4.1 **Initial Rental Payments.** Subject to the terms of this Agreement, the County shall make quarterly payments of Two Hundred and Fifty Thousand Dollars (\$250,000), for a total of One Million Dollars (\$1,000,000) per year (the “Base Rental Payment”).

4.1.1 The amount of the Base Rental Payment is based on Three Thousand Two Hundred and Thirty Six Dollars and Twenty Five Cents (\$3,236.25) per hydrant constructed and maintained as part of the Water System Improvements (totalling approximately 309 hydrants).

4.1.2 The County shall begin making the Base Rental Payments three months after the closing of the Rural Development Loan for Phase I of the Water System Improvements.

4.1.3 The County shall make the quarterly installment payments by October 1, January 1, April 1, and July 1 of each fiscal year as the GCWSA renders services pursuant to this Agreement.

4.2 **Duration of Base Rental Payments.** The County shall make the Initial Rental Payments pursuant to this Article IV for five calendar years after the Initial Service Date. The

Parties expect the Initial Service Date to be approximately October 1, 2017. The Parties may adjust the payment schedule under this Agreement based on the actual Initial Service Date.

4.3 **Interim Financing**

a. The Parties anticipate that the GCWSA will arrange for interim financing for the acquisition of real property and the development of the Water System Improvements prior to the closing of the Rural Development Loan.

b. The proceeds of the Rural Development Loan will be used, in part, to retire the interim financing arrangements.

c. Subject to the terms of this Agreement, the County will make payments to the GCWSA to allow the GCWSA to make debt service payments on the interim financing arrangements.

ARTICLE V

ADJUSTED RENTAL PAYMENTS AND BUDGET REPORTING

5.1 The Parties anticipate that the GCWSA will receive increased revenues from the Water System Improvements over time. The Parties wish to provide a mechanism for the amount of the Base Rental Payments to decrease based on the GCWSA receiving additional revenues in future years.

5.2 **Budget Reporting**. The GCWSA shall submit an annual budget report and funding request to the County no later than January 31 of each year. The annual budget report and funding request shall provide for and report:

5.2.1 All revenue related to the Water System Improvements for the prior fiscal year and projected for the next fiscal year.

5.2.2 All other revenue available to the GCWSA to pay debt service on the Rural Development Loan.

5.2.3 The amount of debt service due on the Rural Development Loan for the next fiscal year.

5.2.4 The shortfall amount needed by the GCWSA to pay the debt service on the Rural Development Loan for the next fiscal year.

5.2.5 The schedule of debt service payment dates due on the Rural Development Loan for the next fiscal year.

5.2.6 The number of fire hydrants served by the Water System Improvements and the number of fire hydrants in the Water Supply System.

5.3 **Adjusted Rental Payments.** The amount of the County's rental payments shall be adjusted on an annual basis. The amount of the County annual rental payments shall be adjusted downward on a proportionate per fire hydrant basis based on any reduction in the shortfall amount needed by the GCWSA to pay the debt service on the Rural Development Loan.

5.3.1 In no event shall the County be obligated to make payments in any fiscal year exceeding the amount of the Base Rent Payment.

5.3.2 The County shall make quarterly installment payments of the adjusted annual rent by October 1, December 31, April 1, and July 1 of each year as the GCWSA renders services pursuant to this Agreement.

5.4 **Excused Payments.** The County shall not be required to make any payment to the GCWSA under this Agreement for any year in which the GCWSA has adequate revenue available from the Water System Improvements or otherwise to pay the debt service on the Rural Development Loan.

ARTICLE VI

GCWSA USE OF FUNDS

6.1 The GCWSA shall use payments by the County solely for the purpose of paying debt service on the Rural Development Loan.

ARTICLE VII

TERM

7.1 This Agreement shall be for a term commencing as of the Effective Date and continuing until December 31 of the year which is the fortieth year after the closing of the Rural Development Loan for Phase II of the Water System Improvements.

ARTICLE VIII

DEFAULT

8.1 Termination for Default. Either the County or the GCWSA may terminate this Agreement if any Party fails to perform any material obligation hereunder and such failure is not cured within ninety (90) days of notice thereof. Any notice of default shall specify the default with reasonable specificity. If the identified default reasonably requires more than ninety (90) days to cure, the time allowed to cure the default shall be extended for a reasonable time provided the defaulting party diligently pursues curing the default.

ARTICLE IX

ASSIGNMENT

9.1 The GCWSA shall assign this Agreement and any or all of its rights, title and interest hereunder to Rural Development, or other lender, as security in connection with constructing or maintaining the Water System Improvements, with the County's prior written consent, which consent shall not be unreasonably withheld or delayed. All covenants, terms,

conditions, and provisions of this Agreement shall extend to and be binding upon any successors and assigns to the Parties hereto.

a. This Agreement, and any or all of its rights, title and interest is hereby assigned to Rural Development as additional security for its loans.

9.2 **Cooperation with Lenders.** The County shall cooperate with the GCWSA and Rural Development, or other GCWSA lenders, to execute and deliver estoppel agreements, assignments and other documents required by Rural Development or other lenders to protect a security interest, providing that such documents do not adversely change the rights and obligations of the County.

ARTICLE X

The other terms of this Agreement shall remain in full force and effect.
